
THE HOLDEN COLLECTION
HR HOLDEN

BRG 213
Series 36
Series list

The most popular Holden of the 1960s, the HR was a facelift of the HD, released in April 1966. The controversial protruding front and rear guards of the HD were removed and parking lights relocated to the grille. Engine capacities were increased to 161ci and 186ci. In mid 1967 the 186S replaced the 186X2 and featured automatic choke. Also available for the first time was an optional limited slip differential and an all-synchro four-speed gearbox with floor shift. Model range of 8 was standard sedan and wagon, Special sedan and wagon, Premier sedan and wagon, utility and panelvan.

Road test data on 1966 HR Holden Special. 36/1
1967. 0.5cm. (1 folder).
